The NUS Field Investigation Team (NUS/FIT), as of April 12, 1991, will terminate project work and consequently cancel TDD No. F1-9008-08, Quinn KJ and Co Inc, issued to NUS/FIT on September 17, 1990, due to a potential conflict of interest with the property owner, KJ Quinn & Company, Incorporated. This potential conflict deals with business relationships between KJ Quinn and Company, Incorporated and another Halliburton Company subsidiary. NUS Corporation believes that FIT would not be able to evaluate the property without potential future challenges to NUS/FIT's unbiased investigation.

Based upon current file information regarding the site, NUS/FIT 1 recommends continued investigative work under CERCLA at the Quinn KJ and Co Inc property. File contents generated to date for the Quinn KJ and Co Inc file will be maintained at the NUS/FIT 1 office for future investigative work.

The Acknowledgement Of Completion for this TDD will be prepared for an May 1991 closeout.

Approval: M. Stadwill for  
Robert Jubach
